Course Information
When: Term A, June 1 – July 2
Course Materials: http://learn.colorado.edu
Other Resources: http://www.gruberpeplab.com/teaching/psych3131_summer2015/
Class Twitter: https://twitter.com/psych3131 (@psych3131)
E-mail: psych3131.emotion@gmail.com
Note: Please direct course-related questions to this e-mail address. You will receive an answer or acknowledgement within 24 hours.

Professor
June Gruber, Ph.D.
Professor, Department of Psychology and Neuroscience
Office Hours (Skype): By appointment
Email: psych3131.emotion@gmail.com

Teaching Assistant
Marianne Reddan
Graduate Student, Department of Psychology and Neuroscience
Office Hours (Skype): By appointment
Email: psych3131.emotion@gmail.com

Course Description
Welcome! This course will introduce students to a diverse array of theoretical and empirical issues related to the study of human emotion. Some questions the course will address include: What are our emotions? What purpose do they serve? How do emotions relate to our thoughts, memories, and behaviors towards others? What happens when our emotional responses go awry? Although these questions date back to early philosophical texts, only recently have experimental psychologists begun to explore this vast and exciting domain of study. The course will begin by discussing the evolutionary origins of distinct emotions such as love, anger, fear, and disgust. We will ask how emotions might color our cognitive processes such as thinking and memory, emotion and the brain, development of emotions in childhood, and how emotions shape our social relationships. We will also consider how these methods can be applied to studying mental illness in both children and adults. We conclude by studying the pursuit of happiness and well-being, trying to understand what makes us happy.
**Course Structure**

1. **Videotaped Lectures: Conceptual Foundation in the Science of Emotion**
   You will be required to watch a series of videotaped lecture by Professor Gruber. Each lecture video is approximately one-hour long, split up into 3 smaller ~20-minute modules. Each week, you will be expected to watch 4 lectures (i.e., or 4 lectures x 3 brief modules = 12 modules total) totaling approximately 4-5 hours per week of video lectures. There are a total of 20 lecture videos for the entire course. The videotaped lectures contain presentation of background material via slides, videos and exercises; and conclude with take-away questions at the end. It is critical that you view all videotaped lectures in order to do well in this course. It is important that you take notes during each lecture to ensure successful comprehension of the material.

2. **Background Readings: Scientific Exposure to the Study of Emotion**
   To get the most out of this course, it is important that you understand the readings. The lectures will be coordinated to complement your readings. Please read the assigned chapters and/or articles before watching the assigned lecture video. This will allow for a better understanding of the lecture and also give you the opportunity to ask questions. Readings will be drawn from a textbook and empirical journal articles.

**Course Requirements & Grading**

1. **Course Material Comprehension - Two Exams**
   (30% each x 2 exams = 60% total)
   There will be 2 non-cumulative exams in this course. Each exam will cover approximately 1/2 of the course material covered in lectures and readings. Exams may consist of multiple-choice, short-answer, and essay questions that involve critical thinking about concepts drawn from the readings and lectures. The purpose of the exams is two-fold. First, you should be able to demonstrate that you have read and watched the material and understood the factual points and arguments. Second, you should be able to synthesize and integrate the material such that this knowledge can be applied in a broader context. Exams will be closed book. Unfortunately, there will be no exam make-ups given the accelerated summer course schedule.

2. **Critical Thinking - Discussion Questions**
   (1 posted response per lecture x 20 lectures = 20 total; 1.5% each = 30% total)
   To encourage active engagement and critical thinking about the course material, you are required to submit a discussion question response corresponding to each class lecture for a total of 20 discussion question responses. The goal of these questions is to spark critical thinking and consideration of the theoretical issues or common themes raised in the science of emotion. Discussion questions will be available for that week’s lectures at the beginning of the week (i.e., available Monday at 12:00am MT). You will have until the end of that same week to submit your responses corresponding to that week’s lectures (i.e., Sunday at 11:59pm MT). For example, during week 1 discussion questions for Lectures 1-4 will be available, and you should submit your responses no later than the end of that week (i.e., submit responses for Lectures 1, 2, 3, and 4), for a total of 4 total discussion responses submitted each week. For each lecture, you will be provided with several options to choose from and are required to select only 1 question per lecture to respond to (we want to give you intellectual freedom to choose!). **Your discussion question response must be submitted in 2 different places by the due date specified above:** (1) Posted on the online discussion post section on the course website and (2) emailed to the course e-mail account at psych3131.emotion@gmail.com with: (a) “Lecture X – Discussion Question” in the subject line, (b) full text response pasted to the email.
bod, and (c) document attachment (.doc or .docx) titled ‘LASTNAME_LectureXResponse.doc’ (e.g., GRUBER_Lecture1DiscussionQuestion.doc). The document should be single-spaced, 12-pt font, Times New Roman, with your full name and student ID at the top. These responses should be approximately ½ page in length. Answers will be assigned one of the following three grades: ‘1’ (full credit), ‘½’ (half-credit), or ‘0’ (no credit). You can assume your response has been successfully received and graded a ‘1’ unless you hear otherwise via email. For each calendar day the project is turned in late, you will have 10% of your score deducted.

3. Class Participation -- Peer Responses (5 weeks x 1% each = 10% total) 
Your participation in this course is vital to your success. As such, we expect that each of you contribute meaningfully to class online discussion posts. Specifically, each week you will respond to at least one classmate’s post by the end of the week (i.e., Sunday by 11:59pm MT) for a total of five posted peer responses by the end of the semester. Please do not wait to submit all five at the end of the semester, but follow the above guidelines for one response posted per week. **Your peer response must be submitted in 2 different places by the due date specified above:** (1) Posted on the online discussion forum on the course website and (2) emailed to the course e-mail account at psych3131.emotion@gmail.com with: (a) “Lecture X – Peer Response” in the subject line, (b) full text response pasted to the email bod, and (c) document attachment (.doc or .docx) titled ‘LASTNAME_LectureXResponse.doc’ (e.g., GRUBER_Lecture1Response). The document should be single-spaced, 12-pt font, Times New Roman. These responses should be approximately 2-3 sentences and no longer than ½ page total. Answers will be assigned one of the following three grades: ‘1’ (full credit), ‘½’ (half-credit), or ‘0’ (no credit). You can assume your response has been successfully received and graded a ‘1’ unless you hear otherwise via email. For each calendar day the project is turned in late, you will have 10% of your score deducted.

**Extra Credit Opportunity**
Extra credit opportunities are available for interested students. Extra credit is worth 5% maximum of your total grade. This is the only extra credit opportunities available for this course so take advantage of them!

**Extra Credit Option: Online Interviews with Emotion Experts.** Each lecture in class is paired with a ~15-minute “Experts in Emotion Interview” containing a videotaped conversation with Professor Gruber and an expert scholar in emotion from the field. These are noted at the end of each video lecture, and freely available for viewing: (http://www.youtube.com/playlist?list=PLh9mgdi4rNew731mjJZn43G_Y5otqKzJA). For extra credit, you have the option to submit a 1-page, single-spaced, 12-pt Times New Roman font, reaction to watching the online interview that accompanies the specific class lecture, discussing and critically analyzing the major themes discussed in each video. **Templates for responses will be provided.** Responses are due no later than **Sunday 11:59pm MT** by the end of each week for that week’s lectures (i.e., videos corresponding to Week 1’s lectures have extra credit responses due by 11:59pm MT Sunday that week). No late extra credit responses are accepted. You will submit your responses to: psych3131.emotion@gmail.com with: (1) Full name, (2) Paste entire response in email body, (3) Attach document to email with responses as well (.doc or .docx format only), and (4) You MUST include the following subject line in the email: **LASTNAME_EIE_LastNameExpert.doc** (Example: Smith_EIE_Gilbert.doc). Failure to follow directions will result in a grade of a ‘0.’ For every 5 full-credit responses (i.e., assigned a grade of a ‘1’) submitted, you will receive 1% extra credit point toward your final grade, for a maximum of 25 responses that can be submitted totaling to 5% total extra credit. A handout detailing requirements and format for this extra credit assignment will be provided to interested students by emailing psych3131.emotion@gmail.com.
Readings and Materials
Please read assigned chapters and/or articles before the class meeting on the assigned date.

Articles: Articles outside of textbook will be available to download as PDF files off the course website.

Grading
A rough grading scheme is below. Grades will typically be rounded up to the nearest % point. Students who actively participate and engage in the course may enhance borderline grades.

<table>
<thead>
<tr>
<th>% Points</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>92.5-100</td>
<td>A</td>
</tr>
<tr>
<td>89.5-92.4</td>
<td>A-</td>

Course Policies
1. Disability
If you qualify for accommodations because of a disability, please submit to your professor a letter from Disability Services in a timely manner (for exam accommodations, provide your letter at least one week prior to the exam) so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities. Contact Disability Services at 303-492-8671 or by e-mail at dsinfo@colorado.edu. If you have a temporary medical condition or injury, see Temporary Medical Conditions: Injuries, Surgeries, and Illnesses guidelines under Quick Links at Disability Services website and discuss your needs with your professor.

2. Religious Observances
Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, make-up assignments will be considered only if written notice is provided at least 1 full week prior to the scheduled course due date. See full details at http://www.colorado.edu/policies/fac_relig.html
3. Classroom Behavior
Students and faculty each have responsibility for maintaining an appropriate learning environment. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran’s status, sexual orientation, gender, gender identity and gender expression, age, disability, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. See policies at http://www.colorado.edu/policies/classbehavior.html and at http://www.colorado.edu/studentaffairs/judicialaffairs/code.html#student_code

4. Discrimination and Harassment
The University of Colorado Boulder (CU-Boulder) is committed to maintaining a positive learning, working, and living environment. The University of Colorado does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation, or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 10, amended 11/8/2001). CU-Boulder will not tolerate acts of discrimination or harassment based upon Protected Classes or related retaliation against or by any employee or student. For purposes of this CU-Boulder policy, "Protected Classes" refers to race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, or veteran status. Individuals who believe they have been discriminated against should contact the Office of Discrimination and Harassment (ODH) at 303-492-2127 or the Office of Student Conduct (OSC) at 303-492-5550. Information about the ODH, the above referenced policies, and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at http://hr.colorado.edu/dh/

5. Honor Code
All students of the University of Colorado at Boulder are responsible for knowing and adhering to the academic integrity policy of this institution. Violations of this policy may include: cheating, plagiarism, aid of academic dishonesty, fabrication, lying, bribery, and threatening behavior. All incidents of academic misconduct shall be reported to the Honor Code Council (honor@colorado.edu; 303-735-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Other information on the Honor Code can be found at http://www.colorado.edu/policies/honor.html and at http://honorcode.colorado.edu

6. Regrades
Regrades will ONLY be considered in extremely exceptional circumstances. If you have any inquiries about grading, first talk to your TA to check for miscommunications or errors. If your TA agrees to a regrade, your TA will e-mail the Professor and cc the student with the reasons for the change. Any regrade will be subject to an entire re-grading by the Professor directly, and your score could go up or down (and often it goes down). Advice: Don’t ask for regrades unless there is a blatant error.

### WEEK 3

**Lecture 9**

**Emotions and the self**

Question: What are self-conscious emotions?

- 9.1
- 9.2
- 9.3

**Required**
- Tangney (1996). Are shame, guilt, and embarrassment distinct emotions?

**Optional**

**Lecture 10**

**Emotion & the social world**

Question: Living in a social world?

- 10.1
- 10.2
- 10.3

**Required**
- Chapter 9 (textbook)

**Optional**
- Graham *et al.* (2004). Willingness to express negative emotions promotes relationships.

**Lecture 11**

**Morality & Emotion**

Question: Do emotions make us moral?

- 11.1
- 11.2
- 11.3

**Required**

**Optional**

**Lecture 12**

**Cognition and Emotion**

Question: How does thinking affect feeling?

- 12.1
- 12.2
- 12.3

**Required**
- Chapter 10 (textbook)

**Optional**

### WEEK 4

**Lecture 13**

**Judgment and Decision-Making**

Question: Does our wallet reflect our feelings?

- 13.1
- 13.2
- 13.3

**Required**
- Lerner (2004). Heart strings and purse strings: Carryover effects of emotions on economic decisions:

**Optional**
- Lowenstein & Lerner (2003). The role of affect in decision-making.

**Lecture 14**

**Emotion Regulation**

Question: Can we change our emotions?

- 14.1
- 14.2
- 14.3

**Required**
- Chapter 11 (pp. 292-295)

**Optional**

**Lecture 15**

**Emotional Development**

Question: How do emotions grow?

- 15.1
- 15.2
- 15.3

**Required**
- Chapter 8 (textbook)

**Optional**

**Lecture 16**

**Emotion and Physical Health**

Question: Is there a mind-body connection?

- 16.1
- 16.2
- 16.3

**Required**

**Optional**
| WEEK 5 | Lecture 17 | Emotional Disorders: | 17.1  
17.2  
17.3 | Required  
Optional  
| WEEK 5 | Lecture 18 | Emotion and Mental Health  
Question: How to cultivate healthy feelings? | 18.1  
18.2  
18.3 | Required  
Optional  
| WEEK 5 | Lecture 19 | Happiness  
Question: Don’t worry, be happy? | 19.1  
19.2  
19.3 | Required  
• Fredrickson (1998). What good are positive emotions?  
• Gruber, Mauss, & Tamir (2011). A dark side of happiness? How, when, and why happiness is not always good.  
Optional  
• Myers & Diener (1995). Who is happy?  
• Dunn et al. (2008). Spending money on others promotes happiness.  
• Pennebaker (1997). Writing about emotional experiences as a therapeutic process. |
| WEEK 5 | Lecture 20 | The Future of Emotion  
Question: What does the future hold? | 20.1 | Required  
• None  
Optional  
• None |
